ADVISOR NOTES					2 notes
05/06/2026 — Whitfield, K. Student intends to graduate May 2027. 36 credits remain across two terms; discussed credit load and summer options. Student has not yet completed CS 262, which is a prerequisite for CS 367; CS 367 in turn is a prerequisite for CS 471 and for the CS 455 / CS 468 / CS 475 systems requirement in the senior block.					
05/06/2026 — Whitfield, K. Two senior computer science slots and one computer science-related elective slot remain unassigned. Student asked for help choosing; referred to department advising.

This evaluation is an unofficial audit of progress toward the degree. It is not a transcript and it is not a guarantee of graduation. Courses may satisfy more than one requirement; credits are applied once toward the 120-credit degree total. Grades of D or higher earn credit, but some courses in the major require a minimum grade of C to satisfy a prerequisite. Confirm all requirements with your academic advisor before registering.
